SUSTAINABILITY

Hilton Worldwide made a commitment to manage our business through the lens of sustainability and put in place aggressive and far reaching sustainability targets.

By employing action and innovation we aim to reduce energy consumption, waste, and carbon dioxide emissions by 75% and water consumption by 50% by 2030 and paving the way to a net-zero future. Across worldwide we have already taken major steps towards using sustainability to drive hotel performance, supporting the communities we operate in, engage team members, and most important serve our guests.

LightStay is Hilton's award-winning and proprietary program that allows every hotel to measure and manage their carbon, waste, water, energy, and other environmental performance factors. LightStay reporting offers a snapshot of Hilton's environmental and social impact globally at both the property level and company-wide. Through our awardwinning LightStay™ platform, it's easy to predict, reduce and offset your meeting's carbon emissions. Since 2009, Hilton has used it to measure and manage our environmental and social impact across our global portfolio of hotels

We aim to make sustainability our DNA, our way of life and the way we go about our business.
